Introduction

Hello there! Thanks for download and try our template TR005 a product of Template Rex!

This free product is a fully functional example of our work that we do in Template Rex for our customers, this is a totally free offer where you can try our services.

You can also buy premium quality templates on our website www.templaterex.com, with the designs that we develop we seek to make your business more visually and professionally attractive to investors, making your business grow and get better benefits.

We hope you enjoy this Template, if you find any error, have recommendations for new features or any questions about a purchase., you can contact me at hey@templaterex.com! I promise I don't bite. :)

Our templates are compatible with any version of the Gold Coders HYIP Manager Pro Script, the templates developed by Template Rex have attractive designs to make your project more successful, you can see its features and see them in action on our website.

Please note, this template is designed using HTML / CSS / JS when making the purchase it includes all the code so you can customize it easily and change the images you want.

How it works

Our templates are ready to work with any version of Gold Coders HYIP Manager Script are fully compatible, you should only have previously prepared your script installation and upload our template to your server where you have made the installation of the script and unzip it in the correct directory.

We have developed the templates with different technologies based mainly on HTML / CSS / JS along with different frameworks, and optimizing the load of them, which is important since we look for the balance between an excellent design of impact and optimization in the load of the template.

We focus on being Responsive so your customers can see without problem your project from PC, Table or mobile which will facilitate navigation in it.

Before Install

Before installing our template remember that it is developed for the Gold Coders HYIP Manager Pro Script.

HYIP Manager Pro Script. Requirements.

HYIP Manager is a package for investment sites. This software helps you to create and manage your own HYIP with ease. **Automatic withdrawal, instant payment and mass payment included.** The combination of price, features, performance and security are the best on the current market.

Requirements:

- Any platform (Win/Linux/other)
- PHP 5.3(or more) + Ioncube Loader
- Curl extension
- GD extension (recommended)
- MySQL database
- [Security tips](#)

Common question:

- Does it work with php 5.3+ and mysql 5+?
- Script work with any php version from 5.3 to 5.5

You must have your HYIP Manager Pro Script previously installed and configured.

If you do not have the HYIP Manager Pro Script, you will not be able to install this template since it is necessary to have the Script installed first.

We sell on our website the HYIP Manager Pro Script updated to the latest version which has a "medicine" license that allows it to be installed on multiple websites with a single copy at an excellent affordable price, so you can start your own investment project.

5. If you have done it correctly, the process will be running the template with your Script Gold Coder Manager in any version and ready to enjoy your new look!

EXAMPLE Template Working:

Do you have problems with the installation?

Do not worry if for some reason the script is not displaying it on your website, these are some steps that will help.

STEP 1. Verify that the template when unzipping has been installed and replaced in the root directory of your hosting folders:

STEP 3. If you do not see the last deposits and withdrawals when installing the template, check the configuration of your Script and activate it correctly.

Verify that you have the option to show deposits and withdrawals in the InfoBoxes Settings option and have the amount in this example set to 10 both.

It is recommended

1. Protect your installation with services such as SSL certificate, Firewall, DDOS, CDN to increase security in your project and avoid attackers.
2. Generate strong passwords for your project, keep them in a safe place you can use the following site to generate strong passwords or use your preferred service.

www.passwordsgenerator.net

3. **Remember that this product being free does not unfortunately have support due to its nature, our other products have 1 month support.**

Enjoy Your Project, Template Rex
